n Architecture (PDF, CSV, Vision)`

> *"You also need to update the application version/build/architecture version f
or every iteration build."*

---

1. Executive Summary

Milestone **v6.6** resolves the critical ingestion mismatches on the Tax Expert
page by delivering a smart, context-aware upload architecture across both primar
y upload entry points:

1. **Upload Panel Mismatch Resolved (`UploadValidationModal.tsx`):**
   - **Context Awareness:** Added `context="tax"` and `initialTab="pdf"` integra
tion. When opened from the Tax Expert page, the modal dynamically brands as **"T
ax Return & Portfolio Ingestion"** and defaults directly to a new dedicated **PD
F Upload** tab.
   - **Universal 3-Way Top Ribbon:** Added three dedicated tabs:
     - `[
